Small Chocolate Bean Forming Machine For MM Beans Chocolate, Snack Candy Making Machine

Specifications :

keyword	Automatic Chocolate bean production line, Chocolate bean making machine, chocolate bean forming machine, chocolate bean roller former

Detail Introduction :

Chocolate Bean Forming Machine

PROFILE:

This machine is special equipment used for molding cold-rolled chocolate, it can cold roll and shape a variety of pure chocolate, including spherical, oval, lentil-shaped and other shapes. With high labor productivity, production of chocolate quantitative accuracy, smooth surface and is in line with food hygiene requirements.

Technical parameter:

Capacity	100-150kg/h
Total power	20kw
Outside dimension	8620*1040*1850mm
Production ability	1~1.5 ton/ shift
Roller speed	0.3~1.5 turn/min(adjustable)
Coolant temperature	-25?
Cooling tunnel temperature	0~5°C
General power	25KW (include refrigerate machine)
Outside dimension	7500*1040*1840mm
Weight	2800kg
